The College of William and Mary Police Department is grateful for the valuable services provided by Steer Clear. This student run organization provides several benefits to the community. First, they provide escorts for students traveling late at night to increase their safety and to make them more secure. It offers a safe means of transportation for students that may not be in a position to transport themselves safely. A clear but unintended benefit of Steer Clear is their interaction with my department. They offer an addition set of eyes and ears in the community that provides information about suspicious persons or activity that may be taking place on or near the campus.

The Steer Clear Program is an import part of the community effort to provide a safe and secure experience for our students. I appreciate the effort and commitment made by the administrators and drivers of this fine program and will continue to support them in any way I can.

Don Challis
Chief of Police
The College of William and Mary
